

# Take That "The Circus"

Visit "[The Circus](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Silence please 'cos i've got something to say  
And i'm going round in circles every day  
The more i shout the more i hesitate  
Now that you're gone  
Now that you're gone

Stand up please til i'm done losing my mind  
And i've thanked you all just one too many times  
The more we fall the harder we must climb  
Now that you're gone  
Now that you're gone

Cos' everybody loves a circus show  
But i'm the only clown you'll ever know  
And now you can applaud my best mistake  
I love you was too many words to say, to say

Silence please 'cos i've got something to say  
And before the music takes you all away

I never thought I'd leave it all so late  
Now that you're gone, Oh you're gone

Yeah, everybody loves a circus show  
But i'm the only clown you'll ever know  
And now you can applaud my best mistake  
I love you was too many words to say  
I love you was too many words to say, to say

I never thought I'd leave it all so late  
Now that you're gone, Oh you're gone

Yeah, everybody loves a circus show  
But i'm the only clown you'll ever know  
And now you can applaud my best mistake  
I love you was too many words to say  
I love you was too many words to say, to say
