You must think im crazy,
You think that im a fool,
Im hoplessly romantic,
Whenever im with you,
See the world through my eyes,
And never look to far,
Were ment to be together,
Its written in the stars,

Were walking the highway,
Doing it our way,
And nothings ever really out of reach,
Oh,

Baby baby im not crazy,
I just got my heart on my sleeve,
I never think it over,
Or said maybe,
Oh and thats the trouble with me,
I dont want to talk it over,
I carry the world on my shoulders,
Yeah baby baby you cant save me,
I always leave my heart on my sleeve,
Thats the trouble with me,
Thats the trouble with me
Yeah,

I follow my emotions,
Youll always call my name,
You tell me how your feeling,
Im sure ill feel the same,
I dream in constellations,
Youre always in my heart,
The road it always takes me,
Back to where you are,

Im driving the highway,
Doing it my way,
When I know your never really out of reach,
Oh,

Baby baby im not crazy,
I just got my heart on my sleeve,
I never think it over,
Or said maybe,
Oh and thats the trouble with me,
I dont want to talk it over,
I carry the world on my shoulders,
Yeah baby baby you cant save me,
I always leave my heart on my sleeve,
Thats the trouble with me,

Oh,
I never want to come down,
Oh,
I never never want to touch the ground again,

Ill never learn my lesson,
I never want to change,
If loving you will hurt me,
Give me the pain,
Yeah,

Baby baby im not crazy,
I just got my heart on my sleeve,
I never think it over,
Or said maybe,
Oh and thats the trouble with me,
Thats the trouble with me,
Yeah thats the trouble with me,
I dont want to talk it over,
I carry the world on my shoulders yeah,
Baby baby you cant save me,
I always leave my heart on my sleeve,
Thats the trouble with me,
The trouble with me.
