A sinking call
An out of sight hello
From a thousand wailing walls
It's like you
It's like you never left at all

I throw your word around like child's play
Listen to what I say
I throw your words around like child's play
New blues for a new day

And when I'm gone
I want you to wonder
And when I stop
I want you to play

And let the best of you just see right through me
Cause I can't see

But I wasn't where you were
No I'm never where you are
I'm in my looking glass view
Always almost too close to you
I'm always almost too close to you
