Uh Oh

I feel the time has come to play  
I see you look my way  
My mind filled with cruel intentions  
I'm wanting your affection

Cold heart  
Cold, cold cold hands  
I think I'm getting to understand  
Automatic flash point I see you  
Across the floor  
Make all things new

Uh oh

This is where it ends  
Past perfect future tense  
An Altered state of mind  
Your words no longer grind

Here I am in full battle gear  
Here I am I'm wanting you  
I'm wanting you near me

Uh oh

I miss my heartbeat for you  
I want to live and love like I'm high above

I miss my heartbeat
