I saw the other side, I saw the other side in your eyes.  
You berried me alive, you berried me alive with you lies  
The flame inside of me, the flame inside of me burning  
still.  
I wanna se you bleed, I wanna see you bleed I know I  
will.  
All over me, all over me, yeah  
All over me, all over me.  
Don't wanna fall asleep, don't wanna fall asleep at  
night.  
My pain is yours to keep, my pain is yours to keep  
inside.  
My only enemy, my only enemy is my friend.  
The world is coming down, the world is coming down  
on you again.  
All over you, all over you.  
All over you, all over you.  
If I fall asleep I will never wake up.  
If I don't wanna sleep I never wake up.  
If I fall asleep I will never wake up.  
All over me, all over you, all over me, all over you, all  
over me, all over you.
