Taketh
"Ignore"

Music: Taketh
Lyrics: David

Close your eyes
Pretend it's not there

I am alarmed by the way things move today
The way we close our eyes / and ignore what is
happening to our world

Terror, war, starvation,
Innocent blood being spilled
But hey it's just on tv
Turn it off and it dissappears

We pretend not to see, and hope things will be fine
This horror can not be, leave this world of mine

Can you see the future
Do you feel the horror
Will you close your eyes
And pretend it's not there
