"Come A Little Closer"

Visit "[Come A Little Closer](#)" on MotoLyrics.com

I see you dance, you dance the night away,
But not with me , why don't you look my way
If I could make you see just what I've been feelin'
It'll make your heart go spinnin', rockin',reelin'

CHORUS:

Come a little closer, closer to my arms
A little closer, closer to my heart
I wanna try so hard to make you see
Just how beautiful our love could be
Come a little closer, oh babe , closer to me

When I'm alone at night, I go get your picture
And turn out the light, then I've got you
where you should be
Close your eyes and pretend you're with me
(Repeat chorus)

I see you kiss and hold him tight
Oh, what I missed
I hope someday I might
Take you back and give you what you deserve
I wanna try now but I don't have the nerve

(Repeat chorus)
