Girl,when I'm alone with you
I get a feelin' through and through
Tellin' me that love is comin' on
My head starts spinnin' round and round
And I don't care what's up or down
Cause deep in my soul, I'm out of control
When I start to hear the sound of

CHORUS :

A heartbeat, it's a lovebeat
And a lovebeat is a good vibration
Oh, a heartbeat is a lovebeat
And when we meet , it's a good sensation

Listen to my heart pound
Listen to my love sound
Feel it gettin' stronger
Can't hold back any longer

Heartbeat, it's a lovebeat
And a lovebeat is a good vibration
Oh a heartbeat it's a lovebeat
And when we meet, it's a good sensation
Listen

Pictures pass before my eyes
Like a vision in disguise
Tryin' to explain the way I feel
And there's a movement in my mind
Like a rhythm counting time
Breakin' down all my defenses
Overcomin' all of my senses

Listen to my heart pound
Listen to my love sound
Temp'rature is risin'
Girl, there's no disguisin'
