A warm breeze fades out  
Cold leaves touch the ground  
Hold on for a while  
Don't give up and stay alive  
It shows in your eyes  
Let of delight  
My hands of untied  
I can not make it right  
It's over now

People it's over now  
But it will return with a sign  
Try to keep your head up high  
And don't bother anyone

Do you think your alone  
Your not  
Your just weak like me  
Struggle lingers on  
But we will make it over again  
It's over now

Hey

Only the lonely x2

People it's over now  
But it will return with a sign  
Try to keep your head up high  
And don't bother anyone x3
