I don't see it will I ever find, you always say I got special  
mind

I never want it to be that way

I count my days from a better time, I feel more certain I  
feel alive

I never been like I've been today

When your depth comes crawling, I don't wanna go  
back

I hear your whispers, you calling, I am syuck in time (in  
time)

My mind is failing on the other side, I'm in denial I don't  
wanna die

I hope these pills, no , by gone by gone

I feel the strength with my special one, when I'm whit  
her I'm not ever down

When I'm with you, I'm not ever alone

When your depth comes crawling, I don't wanna go  
back

I hear your whispers, you calling, I am syuck in time

Stay in the rain, I don't mind I wanna live

Hit by the pain, It's alright I wanna live

Whatever you feel, wherever you go

I'll be there beside you, I never let go (2x)

Stay in the rain, I don't mind I wanna live

Hit by the pain, It's alright I wanna live (2x)

Ooh.....

Stay in the rain
