Irish blood
American heart
New York City steel
I got the transmission
I got the transmission coming
English rain
Punch drunk eyes
A soul that cannot heal
I got the transmission
I got the transmission
It reads: Dont waste any time at all

Take me to the gallows
Bring the guillotine
You want to take my life
Oh, you want to take my misery?
You want to take my life
Oh, You'll never take away my right to think

Love suffice a chilling wind
The future doesnt look so good
We've got the transmission
We've got to transmit in lieu of food
Thought police sanctioned crime
I still see a glimmer of hope
This is the transmission
The last transmission
It reads: Dont waste any time at all

Take my hand and my sorrow for loved ones
