"So Far Away"

Visit "[So Far Away](#)" on MotoLyrics.com

Misery come take me
Into a place I can't forget
Take solace in the comfort of regret
Misery come take me
I said I'm ready, now where's your hat?
It's a million miles away from here, take my hand

You're so perfect, oh, you're so perfectly inept

So far, far away are you with me
Will the music light, will the music light the day?

Misery I'm with thee
In this beautiful loneliness
And your legacy will last a lifetime, my regret

You're so perfect, oh, you're so perfect in death

So far, far away are you with me
Will the music light, will the music light the day?
