So now your pictures worth a thousand words,  
You meant so much to me it hurts.  
This tattoo on my wrist, this feeling can't be missed.  
You meant so much to make things worse.  
Get ready for the impact,  
I promise you won't feel a thing tonight.  
Get ready for the angels, to come and take away your  
pain and sight,  
At the moment of passing.

(I) I know (know) that memories never die,(never die)  
so this is my angel,  
(I) And I (know) know my scars wont heal tonight (heal  
tonight),  
Cause they're paid for, paid for.  
(I) I know (know) that memories never die,(never die)  
so this is my angel,  
(I) And I (know) know my scars wont heal tonight (heal  
tonight),  
Cause they're paid for, paid for.

Get ready for the ending,  
I promise you won't feel the earth tonight.  
And this is for the mending,  
To heal the hearts of the friends you left alive,  
At the moment of passing.

(I) I know (know) that memories never die,(never die)  
so this is my angel,  
(I) And I (know) know my scars wont heal tonight (heal  
tonight),  
Cause they're paid for, paid for.  
(I) I know (know) that memories never die,(never die)  
so this is my angel,

(I) And I (know) know my scars wont heal tonight (heal  
tonight),  
Cause they're paid for, paid for.

This is my tribute to your life.  
In this moment, this violent careless moment (make my  
dreams come true),

This violent careless moment (make my dreams come true),  
This violent careless moment (make my dreams come true),  
(Tonight) I'll make believe that you're still here, I'll see you out tonight (Tonight).  
I'll hold you close and hold you dear, keep you by my side.

Forever and a lifetime,  
Just a blink and you're gone I wish you'd stay.  
And this is for your moment,  
I finally get to say goodbye the right way,  
While everyone's listening.

(I) I know (know) that memories never die,(never die)  
so this is my angel,  
(I) And I (know) know my scars wont heal tonight (heal tonight),  
Cause they're paid for, paid for.  
(I) I know (know) that memories never die,(never die)  
so this is my angel,  
(I) And I (know) know my scars wont heal tonight (heal tonight),  
Cause they're paid for, paid for.
