Tali
"Gonna Catch Ya"

Feel the floorboards they're vibrating,
(this sound's gonna catch ya watch out gonna get ya)
You can't stop your body shakin'
(this sound's gonna catch ya watch out gonna get ya)
With every step that you are takin'
(this sound's gonna catch ya watch out gonna get ya)
Another mix is what we're makin'...

Chorus
Let it guide you...
(this vibe that is comin' this beat that is runnin')
get inside you...
(this vibe that is comin' this beat that is runnin')
gotta hold now...
(this vibe that is comin' this beat that is runnin')
take control now...

Got the beats and breaks you're chasin'
(this sound's gonna catch ya watch out gonna get ya)
In your mouth the bass you're tastin'
(this sound's gonna catch ya watch out gonna get ya)
Looking round the floor you're pacin'
(this sound's gonna catch ya watch out gonna get ya)
Find your spot your bodies bracin'

Chorus

Watch out gonna catch ya, we're gonna get ya x4

Hold tight to what you're feelin'
we got your body reelin'
this music that we're dealin'
from the floor up to the ceiling,
this sound that we're refining,
the future we're defining,
through your minds we're winding,
your senses we are guiding...

Through space and time this bass is tearin'
(this sound's gonna catch ya watch out gonna get ya)
You can't believe the sound you're hearin'
(this sound's gonna catch ya watch out gonna get ya)

Once this fire it be flarin'
(this sound's gonna catch ya watch out gonna get ya)
There's no body that we're sparin'
(this sounds gonna catch ya watch out)

Chorus
Let it show you...
(this vibe that is comin' this beat that is runnin')
Where to...go...to...
(this vibe that is comin' this beat that is runnin')
when you need it...
(this vibe that is comin' this beat that is runnin')
when you need it...

Watch out gonna catch ya we're gonna get ya x 4
