i'm sick of telling you all the time,
of justifying whats on my mind
i wish you'd make some sense, you're all over the place
you make me feel like i never wanna see your face.
i dont need to hear the lies you tell
i'm starting to think i don't know you that well

im trying my best not to care (i gotta let you go)
but you follow me around everywhere

when you say you dont need me (not ever)
then you call just to tell me (it's forever)
maybe i should wait for something better,
dont wanna be together
he loves me, he loves me not
whatever

don't you cry and don't you beg
don't you suck up to me, don't you mess with my head
you're just a boy, but you think you're the man
better learn how to treat me as fast as you can

it's time for me to move on (i'm so over you)
so when i wake up you had better be gone

when you say you don't need me (not ever)
then you call just to tell me (its forever)
maybe i should wait for something better
dont wanna be together
he loves me, he loves me not
whatever

take a long hard look at me
now im gonna set you free
out of the world, and out of my life
cause now we're history

when you say you dont need me (not ever)
then you call just to tell me (its forever)
maybe i should wait for something better
dont wanna be together
he loves me, he loves me not

when you say you dont need me (not ever)
then you call just to tell me (its forever)
maybe i should wait for something better
don't wanna be together
he loves me, he loves me not
he loves me, he loves me not
he loves me, loves me not
whatever!
