Hypnotized in my mind
Something 'bout the way you move
I can feel your body
Burning thru these hands of mine

Feel you up, feel you down
Ooh, you've got a vain emotion
I can sense temptation
Like it was our 1st time

Dirty days (dirty days), dirty lies (dirty lies)
Tell me where do we go? (Where do we go?)
I need to know girl if our climate's right

Give a sign in the night
We can take it all away
Visions of paradise
Pictures of dreams come true

Give a sign in the night
Long enough to hear me say
Anything, oh, anytime now, baby
You gotta give me a sign!

Why don't you give me a sign?

I'm in love, fill me up
Sending thru the walls of passion
And a silent whisper
Must have found the crown of desire

All the names (all the names) and all your lies (all your lies)
But I still just don't know (still just don't know)
Memories we made don't justify

Give a sign in the night
We can take it all away
Visions of paradise
Pictures of dreams come true

Give a sign in the night
Long enough to hear me say
Anything, oh, anytime now, baby
You gotta give me a sign!

I need to see the writing in your eyes

Give a sign in the night
We can take it all away
Visions of paradise
Pictures of dreams come true

Give a sign in the night
Long enough to hear me say
Anything, oh, anytime now, baby
You gotta give me a sign!

Why don't you give me a sign?
You gotta give me a sign!
Why don't you give me a, why don't you give me a
sign?
You gotta give me a, you gotta give me a sign!
Why don't you give me a sign?
