There u were
Standin' all by yourself
Lookin' like a puzzled child
Till i came along
I made u laugh
U told me bout the years u cried
The tears that made u wanna die
& times we were wrong
(Chorus:)
So just call my name
Tell me that u feel the same
If you're always there 4 me
I'll be there 4 u (oh, whoa)
& if your worlds collide
I'll be standin' by your side
& if the rain should fall again
I'll be there 4 u
U say it's hard 2 know
U say you're trying 2 believe
The words u've heard 'em all b4
They've just turned 2 lies
But i can guarantee
The words i sing will carry on
I'll take your pain & make u strong
I'll make it all right
(Chorus)
(there 4 u { i'll be there }) i'll be there 4 u (there
4..{there 4 }...u)
I'll be there 4 u (there 4 u { i'll be there })
I've waited this long & i'm not letting go Chorus
(there 4 u { i'll be there }) i'll be there 4 u (there
4..{there 4 }...u)
I'll be there 4 u (there 4 u { i'll be there })
