Lord it's so hard, livin this life
A constant struggle each and every day.

Some wonder why, I'd rather die
Then to continue livin this way.

Many are blind, and cannot find
The truth cause no one seems to really know.

But I won't accept, that this is how it's gonna be
Tell all you got to let me and my people go.

Cause I wanna be free, completely free
Lord won't you please come and save me.

Cause I wanna be free, totally free
I'm not gonna let this world worry me.

Find the cost of freedom, buried in the ground.
Mother Earth will swallow you, lay your body down.
