eyou should know (by now) really
that this could end, really
you should know i could never make it work
wake up
let's pretend, really
really
babe

do you like the way the water tastes
like gunfire
for you but you could never say
then come forth 'cause its coming round
round the water

beware the water

you should know
babe
at least pretend you did know why
its not like you watch so go on take a drink
really
babe

do you like the way the water tastes
like gunfire

you knew but it was never safe
take one more 'cause its coming round
round the water

beware the water
beware the water

teeth are dry
The wind blows
fill cup, drink it
there you go

beware the water
beware the water

beware the water

do you like the way the water tastes
do you like the way the water tastes
