I taste you much better  
Off teeth taste  
Of white skin on red leather  
Check the claws we got

Night time cavity to come in  
Downtown pony work your pitch

I came to in feathers  
Like leaves taste  
You rubbed me together  
With claws like we got  
Night time cavity to come in  
Downtown pony work your pitch  
Daytime dancer, I'll come inside  
Got my teacher now carve your niche

[Incomprehensible] is yours  
Night time cavity, ahh

Night time cavity to come in  
Downtown pony work your pitch  
Daytime dancer, I'll come inside  
Got my teacher now carve your niche
