here's our version of root. we cover the song. i'm in a band out of austin called PLAIN. -  
p.H7  
we forced under I look unto your home, because we  
gave our eyes but no one will yes I  
know the crime  
to the cause I will be bored(born?)(2nd chorus- I will  
evolve but you won't) we are here  
into your eyes it's up inside we start to cry just because  
I will ever limit me and suffer live  
or would ... live  
we judge by one, or linked by three and your holes  
enclose, we gave our eyes, but no one  
will yes I know BECAUSE

and then I fuck the meaning and you won't find me and  
you won't find me and you won't  
turn away sucker(psycho) and though that means you  
won't find me and you won't find me  
and you won't so I come from sucker and though that  
means you won't find me and you  
won't find me a you won't turn away sucker and though  
that means you won't find me, I'm  
into the big CALL and, and we, we go with Jesus in a  
bowl of germ  
some more I been fly.
