I can't move her
Obsessed with protection
This is a bad idea
She needs affection
What, me?

Drive around town
Forced to talk
Pass that church again
Where's a parking spot?

It's Sinatra's world
She just lives here
I hate everything
As much as I hate me

What's the best for me?
What's the best for me?
What's the best for me?
What's the best for me?

She doesn't see me
And I don't care
Just move around some
Fix your stare

I had more fun
Took half the time
Cost three bucks
Buy a magazine

What's the best for me?
What's the best for me?
What's the best for me?
What's the best? Yeah
