Don't wanna take it slow  
I wanna take you home  
And watch the world explode  
From underneath your glow

I wanna watch the way  
You creep across the night sky

You slowly enter  
'Cause you know my room  
And then you crawl your knees off  
Before you shake my tomb

I wanna watch you close  
I need to see for sure  
And then the tape is on  
Who do you think we could show?

I wanna watch the way  
You creep across the night sky

You slowly enter  
'Cause you know my room  
And then you crawl your knees off  
And then you shake my tomb

I wanna watch the way  
You creep across the night sky

You slowly enter  
'Cause you know my room  
And then you crawl your knees off  
Before you shake my tomb

You enter slowly  
You know my room  
You crawl your knees off  
And then you shake my tomb
