Before the light I found the dark  
Before tonight I fell apart  
Frozen up I've realized that something's gotta change

It took a crash to understand  
Time kept slipping through my hands  
I never used to know  
The sun will shine after the rain

Say goodbye, say goodbye to the way I was before  
Say hello, say hello to a new way  
I was lost, but I found what I was looking for  
Waking up, waking up to a new day  
To a new day

I was sleeping in a twisted dream  
Dying just to make believe  
A pretty situation was far from where I was

But I'm not up for giving up  
Lying down and out of luck  
My mistakes are in the open and know  
I'm finally coming clean

Say goodbye, say goodbye to the way I was before  
Say hello, say hello to a new way  
I was lost, but I found what I was looking for  
Waking up, waking up to a new day

Cause everything, everything ends at the start  
I'm healing and feeling all of my scars

Say goodbye, say goodbye to the way I was before  
Say hello, say hello to a new way  
I was lost, but I found what I was looking for  
Waking up, waking up to a new day  
To a new day [x2]

I was lost, but I found what I was looking for  
Waking up, waking up to a new day  
To a new day
