My Love , My Love , there are promises between u and me

Whenever we are apart we must be back

When we hope we pass any border

my love , my life is around you

you touch it by your eyes & Feel it by your emotions

My love, my love

7abeebi winta b3eed, moshta2 lilamset eed min gher wala hamsa,

x2

my love when you are far, i miss the hand touch, without any whisper
