She cant do what I do to you,
I know she can't love you the way I love you.

Right here looking in your eyes,
Thinking about what we did last night,
& How you suddenly blew my mind,
Your touch to your tender kiss couldn't take you
breathing in my ear,
Just being with you made me realise.

[Hook:]

& Everytime I see you baby I fall in love over again,
So proud that you are my man,
& I still can't, can't get you outta my head,
Your all I've ever wanted and you just gotta know that...

[Chorus:]

She cant do the things I do to you,
No one is loving you the way, the way I love you,
She can't be everything you need and what you need is
me,
Coz its the way I love you.

The way that I love you,
Love you the way I do,
The way, the way, the way I love you.

When you smile my mind goes spare,
Can't imagine live without you here,
Someway somehow you've completed me,
Thank god you came my way,
What we have came to replace,
You make it easy to be in love.

[Hook:]

& Everytime I see you baby I fall in love over again,
So proud that you are my man,
& I still cant cant get you outta my head,
Your all I've ever wanted and you just gotta know that...

[Chorus:]

She cant do the things I do to you, (She can't)
No one is loving you the way the way I love you,

She can't be (no baby) everything (every little thing
baby) you need and what you need is me,
Coz its the way I love you.

The way that I love you,
Love you the way I do,
The way, the way, the way I love you.

Don't waste your time baby,
You know that your mine baby,
She can't satisfy the way that I do
She can't love you like I do.

[Chorus:]

She cant do the things I do to you,
No one is loving you the way the way I love you,
She can't be (she can never be baby) everything you
need (coz she knows that you need me)
and what you need is me, (she can't do what I do)
Coz its the way I love you (it's the way that i love you)

She cant do (oooo) the things I do to you (please listen
to me)
No one is loving you the way the way I love you, (the
way i love you)
She can't be everything you need and what you (you
baby) need is me,
Coz its the way I love you.

The way that I love you,
Love you the way I do,
The way, the way, the way I love you.

The way that I love you,
Love you the way I do,
The way, the way, the way I love you.
