Sun is shining on my head, but it's a rainy day
I'm just walking around and I got nothing to say
I feel so weird but I'm not even drunk
Everybody looks great, everybody but

(Chorus)

Nobody knows what's inside my head
Inside my head, you're all dead!
Nobody knows what's inside my head
Inside my head, I wish you were dead!

All these kids act cool, they call me a nerd
But it's my lucky day, today I can't get hurt
They spit me in my face, yeah, the joke is on me
Please, do it again, I don't mind because

(Chorus)

This naggin' it still continues, it just won't stop
So I keep on smiling, until they drop
My eyes wide open, head up in the air
Everybody looks great, everybody but

(Chorus)

There will be a day, I'm sure that time will come
No goddamn bully has the guts, to call me dumb
All these kids will fear me, they'll act as I will
Get them on their knees, this is my game
