

De Heideroosjes "Last Call To Humanity"

Visit "[Last Call To Humanity](#)" on MotoLyrics.com

War Child, Sea Shepherd
Just a few who really make an effort

Greenpeace, Amnesty
Some do care about honesty

I don't want to preach what you should do
But it would be good if you'd share my view

The right fight, anyway
Let's not give away
Our hope and struggle for a brighter day

Last call, last call, to humanity
Face your, face your, insanity
We drown, we drown in our vanity

Red Cross, UNICEF
The voluntary doctors of the MSF

Many voices, one message
The status quo presents a real bad presage

They are the ones who really make a difference
They stand up against our own ignorance

The right, fight, anyway
Let's not give away
Our hope and struggle for a brighter day

Last call, last call, to humanity
Face your, face your, insanity
We drown, we drown in our vanity

Last call, last call, to humanity
Face your, face your, insanity
We drown, we drown in our vanity
Last call, last call, to humanity!
