He goes to countries like Brazil
To tell the people everything about God's will
No sex before marriage, no even safe
Don't use condoms and walk straight to your grave

[Chorus]

Listen to the Pope, you'll get aids [x4]

*A little creep in a ghost outfit
Thinks he is Jesus but he's not a bit
Against everything that fits not in his head
He ain't stupid but his brains are death*

*Abuse the words of a guy called God
Explain words wrong to justify blood
Preaching about peace among all of us
But can't you see the crimes that religion does?*
