Sweat all over my body
I'm moving on the floor
The music in my ears, nothing to fear for
A smile on my face, I'm moshing this place

[Chorus]

Teachers, preachers get out of my way
I wanna have fun, I seize the day!

My mom said, Boy I'm scared to death
All that violent dancing, it's not good for your head
But mom I tell you: after a week fuckin' school
Diving and slamming is really cool

[Chorus]

No time for talking, no time for a drink
Let's have some fun, yes that's what I think
Far away from wars and school
My parents think what a fool
But I know mine, having fun means feeling fine

[Chorus]

I know there is so much shit in this world
But don't be down and depressed
Stand up and try to make the best
Think about the pleasure things in life
Come on the stage and let's dive!

[Chorus]
