backup scat heard frequently):
(Sha da da, sha da de sha)

I know it's wrong & yet
We'll have our play, a sinner's devotion
But if I give in to temptation in the moonlight
Let your lips excite me & invite me
How long will it be till you're tired of me?
Till you want somebody new, & we'll be through
because

(x2):
That's how it must turn out
For those who play a sinner's devotion
I know you belong to another & you want me
Only for the moment, but for the moment
The price is too tall; I'd rather listen to your call
For a sinner's devotion is no devotion at all

No no, not at all, not at all, let me tell you not at all
...& fade
