(T. Gray/ S. Watters/ L. Biancaniello)

Playground, voices speak again  
Thoughts of how we were in my head  
Tell me how we lost that innocence  
Like a child waking from a dream  
Everything's not what it seemed  
U were never really a friend 2 me

Must've thought I couldn't see it  
That u were only down 4 the ride  
& out 4 urself  
Now ur bound by the life u left behind

'cause u kick me when I'm down  
Trap me when I'm free  
Cut me with your lies  
Then sit back and watch it bleed  
I think your losin grip  
Baby ur n2 deep  
Tell me which one of your faces

Baby ur so good  
At bein what u aint  
Betta hold ur breath  
'cause honey it's 2 late  
U've run right outta time  
Baby your n2 deep  
Tell me which one of your faces  
Is it gonna be

U pulled the wool right b4 my eyes  
I was blinded by ur disguise  
Young and na?ve didn't wanna face reality  
Without the mask where will you hide?  
Can't find yourself lost in your lies  
Whatcha think that I'd just  
Sit back and let u use me

Must've thought I couldn't see it  
But the tears'll be urs instead of mine  
Now the charade is over

I'm leavin you behind

'cause u kick me when I'm down  
Trap me when I'm free  
Cut me with your lies  
Then sit back and watch it bleed  
I think your losin grip  
Baby ur n2 deep  
Tell me which one of your faces

Baby ur so good  
At bein what u aint  
Betta hold ur breath  
'cause honey it's 2 late  
U've run right outta time  
Baby your n2 deep  
Tell me which one of your faces  
Is it gonna be

Sorry's just a game  
U like 2 play 2 ease the pain  
But words ain't good enough  
When it's all in vain  
Is that what u think  
I'm just that weak  
That u could walk all over me

U betta think again  
'cause u kick me when I'm down  
Trap me when I'm free  
Cut me with your lies  
Then sit back and watch it bleed  
I think your losin grip  
Baby ur n2 deep  
Tell me which one of your faces

Baby ur so good  
At bein what u aint  
Betta hold ur breath  
'cause Honey it's 2 late  
U've run right outta time  
Baby your n2 deep  
Tell me which one of your faces  
Is it gonna be
