You lay me down and whisper in my ear
Ooo, it may be my name you call
But his name I hear

Oou You promised me babe through thick and thin
darling
Oou Your talkin to me but baby I can see
He's on your mind

I said I'm missin' your love every day
I'm missin' your love every way
You know just here with me,
I'm missin' your love

And when we walk, you look into my eyes baby
Ooo You're talkin to me, baby I can see
He's on your mind

I said I'm missin' your love every day
I'm missin' your love every way
You know just here with me darling, I'm missin' your
love

Ooo and now I reach out for you and you turn away
And take it all, all i can do to make it through the day
I'm missin' your love, baby please
I said I'm missin' your love every day
I'm missin' your love every way
Here with me darling
I'm missin' your love
missin' your love
missin' your love
missin' your love
