"Back Of The Barn"

There's a bedford on blacks and an old dirt floor
Hay in the loft and a creck in the door
When you're getting up to mischief down on the farm
It's all gonna happen in the back on the barn
Saw my brother sneak out with the girl next door
He was pulling on his boots and she was shaking of
straw
Dad just smiled he didnt see no harm
Cause it used to be him in the back of the barn
CHORUS
In the back of the barn

In the back of the barn
When you're getting up to mischief down on the farm
Its all gonna happen in the back of the barn
Came home late wiht Tommy last night
We pulled into the drive and he turned out the lights
He looked into my eyes took me in his arms
And said let's go up the back of the barn
CHORUS X3
In the back of the barn
In the back of the barn
