We haven't used this swinging chair in a long time  
And I don't know where the days are flying to  
And the evening is giving into starlight  
I wanna share a little summer time with you

CHORUS

Darlin' come on out to the verandah  
It's been too long since we took the time  
Just to talk about your day and how we're feeling

Come on out to the verandah for a while  
You know I can't recall an night so still  
It's like the world has taken time to sigh  
And the December Moon is glowing over purple hills  
It reminds me of the love lights in your eyes

CHORUS X2

Darlin' come out to the verandah for a while
