

Deicide "Angels Of Hell"

Conquer god and remove his thought, crush the lord
above
bring upon our given right and rule what once was ours
kill, spilling the blood of their priest
back into the mouth of the beast
death, bring them all down to their knees
tell no one they have to believe
die, demons of evil repel
christ dragging his cross back to hell
you will die
walk the realms of blasphemy, shadow in the night
sacrificial son of god, darkness is the light
suffrage for the sins of eve, not to understand
masticate the inner peace never known by man
angels of the realms of hate, predicate the plan
demons of the underworld cast you to the damned
wading through the agony, sanctified by god
destined to the crucifix, on the temple mound

angels rebel, god defiant
angels of hell, satan
angels rebel, fuck compassion
angels of hell, kill you
angels of hell
a revelation that has come to life, has got you by the
balls
the word of god is no longer the way, his word has
been dissolved
kill, spilling the blood of their priests
back into the mouth of the beast
death, bring them all down to their knees
tell no one they have to believe
die, demons of evil repel
christ dragging his cross back to hell
you will die
