

## Deicide "Holy Deception"

Visit "[Holy Deception](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Time has imprisoned on my soul  
Religion in the path of what compels me  
Lies instrument the holy hate  
Deceiving of the weak in faith intention  
Suffering with no reason and nodoubt  
Pertruding on the lines of persecution  
Vomit on the holy man never before your saviour

Brain dead victims of the holy  
Preach your holy lies  
Laugh at divinations and we all will be dead  
Inscribed is you who will die  
Hypocratic bible puncher  
Perish from thisland  
Faithinized victims of the kingdom of hatred  
Infecting this world with their plan

Before none I shall confess  
From a far nor heaven sent  
Cursed are the lambs of god

Brain dead victims of the holy  
Preach your holy lies  
Laugh at divinations and we all will be dead

Inscribed is you who will die  
Hypocratic bible puncher  
Perish from thisland  
Faithinized victims of the kingdom of hatred  
Infecting this world with their plan

Time has imprisoned on my soul  
Religion in the path of what compels me  
Lies instrument the holy hate  
Deceiving of the weak in faith intention  
Suffering with no reason and no doubt  
Pertruding on the lines of persecution  
Vomit on the holy man never before your saviour
