Not Of This Earth, Unknown and forgotten by time  
Evil in nature with power of flight  
Not Of This Earth Lurking the shadows for flesh  
Sent from the heavens descending with death  
Snatching the weak from this world, gone from the  
night and to never be heard  
Ominous figure of blood upon us feed  
Creeping the darkness unfurl, venting it's self with a  
murderous thirst  
Abomination of birth  
Not of this earth...

Not Of This Earth, Unseen by the science of man  
Of it's existence they don't understand  
Not Of This Earth, nowhere will it ever be found  
Patiently stalking and hunting us down  
Demonic prophet of doom, waking from death with a  
hunger in sue  
From hibernation of time released to feast  
Into the night it will search, spreading it's wings and  
expelling it's curse  
A silhouette of the perverse  
Not of this earth...

Not Of This Earth, all those who fail to believe, likely  
succumb and become the unseen,  
Not Of This Earth, Heed not as you look in the sky, you  
may be next in a long line to die  
Stink of the relents of death, stripping the bodies of all  
of there flesh  
Regenetaing inside the vile beast  
Mutilate what it has left, drained of the blood and  
discarded for dead  
Kill you and speak not a word  
Not of this earth...
