### "Almost Done"

Visit "[Almost Done](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I've been close since we started  
I'm just barely holding on  
Been a while finally got it  
Wait is got me, almost gone  
Worst when I look at you, so I close my eyes  
Trying to stay on cruise control between your thighs  
It's slipping away from me, whoa  
And I'm begging my body to hold on, please

[Chorus]

I wish it wasn't over  
I wanna keep making love  
I don't wanna give this feeling up  
This so good  
I wish it wasn't over  
I'm just always wanna be close  
On the Edge do we both almost  
If we could, don't let this thing be over

Uhh, Baby girl you know you got that thing  
Uhh, Talking to myself saying self you can hang  
I'm losing this fight, you rather come die  
I'm out of surviving you  
Worst when I look at you so I close my eyes  
Trying to stay on cruise control between your thighs  
It's slipping away from me, whoa  
And I'm begging my body to hold on, please

[Chorus]

I wish it wasn't over  
I wanna keep making love  
I don't wanna give this feeling up  
This so good  
I wish it wasn't over  
I'm just always wanna be close  
On the Edge do we both almost  
If we could, don't let this thing be over

Don't move, don't move, I'm right there  
The way you move, just say fair  
It feels so crazy taking another stroking baby you gone

have to say  
lets just stay right here

[Chorus]

I wish it wasn't over  
I wanna keep making love  
I don't wanna give this feeling up  
This so good  
I wish it wasn't over  
I'm just always wanna be close  
On the Edge do we both almost  
If we could, don't let this thing be over

[Chorus]

I wish it wasn't over  
I wanna keep making love  
I don't wanna give this feeling up  
This so good  
I wish it wasn't over  
I'm just always wanna be close  
On the Edge do we both almost  
If we could, don't let this thing be over
