Oh Yea  
Thinking bout everything reminiscing bout us  
It's so amazing you aint mine no more  
Just know that this love is still yours for sure  
Nothing been this good damn I wish you would  
remember...  
(Do you remember, do you remember, cause I  
remember, I remember)  
Hoping the phone rings telling me you wanna come  
home  
Cause your so miserable we both feel so alone  
I'd give up anything to start all over with you  
What can I do if you aint willing to give in  
I'll just (wait)wait on (you)you a little more(wait on you a  
little more)  
Truth is (I)I got(no)no place to go  
But I can look in your eyes (and) see I (still)still belong  
(with)with you  
And only with you and I just nee to know...  
(Do you remember, do you remember, cause I  
remember, I remember)  
Wish we were still(wish we were still together Oh) then  
we would be(we  
Would still be together)this can't be over (I can't see it  
in my mind)Cause  
There is no other, I'm running out of time I need you...  
to remember remember  
Remember ber' me...  
(Do you remember, do you remember, cause I  
remember, I remember)  
Oh I need you to Oh look deep in your mind yea, I still  
rememeber all the  
Things you did for me yea Aye, said I do said I do do  
yea, I still got you  
On my mind oh all the time if I could just get one more  
one more oh
