You better work girl, work girl, work girl
You better work girl, work girl, work girl
You ain't never had nobody give it to you like I do
Cause every time I'm in it I'm a give it till your legs can't
move
Got you shaking like a craft can
Oh, and you're all up against the wall
You're gonna live a hell of a back-pain
Stay with it
I ain't finished
Cause I'm still trying to shake the head for the few
more positions to go
Got a little more than you asked for
And I'm still ready to go
I'm a push your body to the limit
We're gonna both fall out when we finished
I need some more time cause I can't get enough
So don't give up
You better work girl, work girl, work girl
(Don't give up)
You better work girl, work girl, work girl
I see you ain't never had to put no overtime
(No time)
I know that you're cool
But what we're gonna do about mine
We need to try a new position
(Hold up)
The word gets you in is killing your friend
I ain't trying to make you give in
But baby I'm still on ten
Cause I'm still trying to shake the head for the few
more positions to go
Got a little more than what you asked for
And I'm still ready to go

I'm a push your body to the limit
We're gonna both fall out when we finished
I need some more time cause I can't get enough
So don't give up
You better work girl, work girl, work girl
(Don't give up)
You better work girl, work girl, work girl

I'm probably showing out
I'm on my superman
Real promotion now
I'm tryin' to win a fan
And every time I'll be like the first time
Like when I got you high on the first line
It's a long ride
Buckle up
Drivin' off road
Cause I like it rough
I know you gotta let a life in your love
But you probably need some help
Cause I'm still trying to shake the head for the few
more positions to go
Got a little more than what you asked for
And I'm still ready to go
I'm a push your body to the limit
We're gonna both fall out when we finished
I need some more time cause I can't get enough
So don't give up
You better work girl, work girl, work girl
(Lemme see you put 'em work)
(Don't give up)
(Lemme see you put 'em work)
You better work girl, work girl, work girl
(Lemme see you put 'em work)
