Here we are I can't believe the time has finally come
Pinch me if I'm dreaming can't believe that I'm the one
Cause to be chosen, welcomed is what I prayed for
Promise to do my best to be all you need and more

Just in case you don't know, let me show my gratitude
I'm just so grateful; it's a privilege to be sexed by you
See the gift that you gave me is so worth the wait and
Don't nobody put it down like you
I'm just glad you came my way, so all that's left to say
Is good lookin' out

Laying here beside you and I can't believe my eyes
Still and all because I saw that special place inside

To be chosen, welcomed Is what I prayed for
Promise to do my best to be all you need and more

Repeat 2x

Just in case you don't know, let me show my gratitude
I'm just so grateful; it's a privilege to be sexed by you
See the gift that you gave me is so worth the wait and
Don't nobody put it down like you
I'm just glad you came my way, so all that's left to say
Is good lookin' out
