"It Fell From The Sky"

Dateline America, the Florida skies, is where they gave
Their lives...
While we shall all mourn their passing, that we can't
Deny
They've gone to the everlasting, as her children cry...
They'll kneel and pray, to honour their brave...
Their eyes don't lie...
It happened so fast with one final blast...
A nation cried... it fell from the sky...
The twenty fifth mission, was it doomed from the
start...
N.A.S.A's dream blown apart while we shall all...
It fell from the sky...
