## "Let It Go"

Visit "[Let It Go](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I need it completely  
Want you to come near me  
I'm hopin' and gropin'  
Want you to get friendly

I'm slowly, I'm holding  
You tight while you're moaning  
And I hear ya and I bear  
It will be, if you want me

Let it go, let it go, if you think it's good  
Don't be afraid to let it go, let it go  
Just hold on tight and  
Let emotions take control of the night

And [Incomprehensible]  
You're [Incomprehensible], to explode  
You and I, you feel me  
What took you

That makes you, enchanter  
Is it high, is it low, don't matter  
There I'll go, I hear a knock at the door  
It's you hope, ready to go

If you want let it go, let it, babe  
If you think it's good, don't be afraid to let it go  
Just hold on tight and  
Let emotions take control of the night

Here's a drink, so that you can unwind  
Relax yourself, let me take over your mind  
After bath and a full body massage  
Want you to know how it feels when you let go

If you think it's good  
Don't be afraid to let it go  
Just hold on tight and  
Let emotions take control of the night
