"Let Start A Family"

Visit "[Let Start A Family](#)" on MotoLyrics.com

chrous: So it seem that we have been going own
saprate way
I just think this time around we should start a family
you are the only one who right for me.

Now we done been throw our up and down and I can't
take it not having you around
I miss the the way when you walk into the door
how you just take control of all that is around.
I ready miss the way you smile
the way you hold me
said I just love the way you put it down
you know you have the key to my heart
just need sometime to make sure all thing's are work
out.

back chrous:same as top
There not Season that I don't think of you
Tell if I'm moving to fast
could you know what to do
Here and now and this is what I want to do.option,
