I wanna take a Chill Pill baby
You outta take a Chill Pill & maybe
We could get together gorgeous
And take our time

I know you really want my high
I know you're from the sky
And I'm so into you
No need to apply
But really, why the hurry?
Rollex

I wanna take a Chill Pill baby
You outta take a Chill Pill & maybe
We could get together gorgeous
And take our time

I can tell you've stayed here millions of years now
While I vacated for 10 thousand lightyears now
It always happens like this
Do you recognize me?
It doesn't matter, we're always rekindled
Then rediscovered

I wanna take a Chill Pill baby
You outta take a Chill Pill & maybe
We could get together gorgeous
And take our time

I'll be your moon
Not another satellite
Right mind communication
Is hard to tune
But we can do it, lets eclipse it
Are you ready?

Will this be good? Will this be bad?
Royalty is something we should keep in the past
My cipher is almost complete
But I'd rather lay with you in nature's secret seat
You

Know me, I've
Returned, I'm
The, Finest
From, Water
Brainsick, and I'll blow your mind
But could we please just take it one sec at a time

I'll reconnect you to my side
(We're not alone that's the thing we shouldn't hide
They get with us, we're lunarly
And family with most invisible things
GC-161
Remember me? I can finally give you some
I'll take your hand, put your faith in me
Again but this time, in 4-D
