Hello! Here we are, here we go
Universal Magician Crew
From ya Deja Vu
Check us out

I am a black hole
I'll make your time stop
Just get rid of your boy
I know how to cast a spell
Tell me where you'd like it
In my top hat

SO you wanna get with me?
I drink green tea and eat my veggies
Running is my way of mind
But I'll flip you. I'm the complete deck
I turn your whole life around
If you let me, if you let me.

I am a black hole
I'll make your time stop
Just get rid of your dude
I know how to cast a spell
Tell me where you'd like it
In my top hat

Who can make somethin out of nothin?
Well I can, if you kiss me
Whose a Universal Magician? I am
Count for me 4, 3, 2, 1
FRESH
Easter bunnies, christmas trees
FRESH
Carved pumpkins, candy please!
CLEAN
Face soap, shaving cream
CLEAN
I know you waxed it off just for me.

Wait, what? Oh no he didn't.

I am a black hole
I'll make your time stop
Just get rid of your man
I know how to cast a spell
Tell me where you'd like it
In my top hat

I can do anything I want to do
You ready for this? Here's my spell...
Check it check it...

Want a magic trick, want a magic trick? Yeah
Are you ready for me, are you ready for me? Yeah
Will you dance with me, will you dance with me? Yeah
Here it goes, here it goes, OH YEAH
Magic wand in ya, magic wand in ya, Yeah
Chop you in half, take the other half, Yeah
Time, space, matter, make it all disappear
But this Universal Magician can always reappear!

I made the time stop with my spell book:

Addition, submission, tradition, intuition, intermission,
Limited edition, and a little sprinkle of decomposition

A magic spell by the Universal Magician Crew
From ya Deja Vu...
