### "My Friend"

Visit "[My Friend](#)" on MotoLyrics.com

My friend, I know i'll be there if you're feeling blue  
My friend, even though we're worlds apart  
And u think u haven't got the style  
to stand alongside superstars  
My friend, even though how everything turned out  
wrong  
My friend, after all its just a passing phase  
We're not the only one to believe  
u deserve a that much better life  
So u can say what u want  
let urself be free  
Let ur heart guide u  
But if u want, i won't desert u  
i won't be far  
My friend, no one knows me well like how u do  
My friend, always out for the long conversations  
About my indecisions, in love, my irradic moves  
You're hard to find  
So you can say what u want  
Let yourself be free  
Let your heart guide u  
Cry if u want, i won't desert u, i won't be far  
My friend, u know we'll be there if you're feeling blue  
My friend, even though we're worlds apart  
We might be walking into directions  
Like we know we're inches let into  
So u can laugh all u want  
Let yourself be free  
i won't let u down  
Or do what u want, let out your victories  
i'll understand  
Or say what u want, let urself be free  
Let ur heart guide u  
Cry if u want, i won't desert u, i won't be far away
