Open your eyes now  
Can you hear  
Try to follow us  
Have no fear  
Space crusaders  
Setting out for a  
civilization undiscovered  
Heavy ships sailing through the endless galaxies  
And one is chosen to bring the torches of humanity  
To unknown lands  
Contact - it's all in vain  
Contact - better leave them alone  
Contact - talking to yourself  
Contact - better stay on your own  
Found a planet  
Involved for a war  
Trying to win us for  
Taking their part  
No communication  
Into confusion  
Same as mother earth

Disillusion  
Heavy ships sailing...  
Contact - it's all in vain  
Contact...  
Disembarked  
To a killing place  
Messenger of the human race  
Last ultimatum  
Final embrace  
The ignorant fool he was  
Heavy ships sailing  
through the endless galaxies  
And Jesus Christ looked away  
When they made the final strike  
With the fires of embracing love  
Contact - it's all in vain  
Contact..
