

Deine Lakaien "Kiss The Future"

Visit "[Kiss The Future](#)" on MotoLyrics.com

Out of the grey now
Came back again
We've seen the old world
Learned our lesson well
Living a new life
The golden dream
And taking polaroids
And kiss the screen
I do remember
Methods of dance
The gender benders
In neon lights

We kiss the future
Let's kiss the rain
The slaves of d-dance
Play love and pain
Let's praise the logic
Adore japan
Rewrite the old book
And dream again

A matter of gender
Party fears too
Upstairs at eric's
They say "don't go!"
Dancing like robots
In the neon rain
From hell or heaven
Eight plus ten
Ashes to ashes
Love will not die
Europe 2000
After the rain

We kiss the future ...

Out of the grey now
Came back again
We've seen the old world
Learned our lesson well
Living a new life

The golden dream
And taking polaroids
And kiss the screen
I do remember
Methods of dance
Ecstatic people
Collapsing nights

We kiss the future
Let's kiss the rain
The slaves of D-dance
Play love and pain
Let's praise the logic
Adore japan
Rewrite the old book
And dream again

... Let's kiss the rain
Lugosi is dead
We fade to grey
Let's praise the logic
Adore japan
Rewrite the old book
And dream again
